*Bean bags*  
WITH PRINT 

## Printed bean bags

We provide an additional service print on the bean bags. You can choose a partial or full print. We recommend printing on our OX and Outside fabrics to achieve the best result. Print on OX is made using special sublimation technology. Print on Outside is made using UV printing technology. Since each technology is adapted according to the features of the fabric, final result is of the best quality and always meets our clients' expectations.

## Bean bangs embroidery

Pusku pusku does not only provide print but also embroidery on the bean bags. We recommend using OX and Outside fabrics in order to get the best possible result. However, client's wish is our command and we will fulfill all the desires they may have. Any logo or icon of various sizes can be embroidered on our bean bags. You just need to contact and leave all the work for us!

## We recommend OX and OUTSIDE fabrics for print and embroidery

# OX

### OX fabric "Youthful and flamboyant!"

OX is a very bright and colourful fabric, especially suitable for youngsters. Advertising companies love this fabric, because it is waterproof and they can place it in indoor/outdoor events. OX is perfect for public, because it is suitable for hard use. The fabric is practical, because it can be cleaned or washed easily.

Handmade

2 bags for a double protection

Removable cover / washable

Certified polystyrene bubbles

Packing: double plastic bag / carton box

Technical data:

100% polyester with PVC coating, long durability, water resistant, washable, outdoor.

# Outside

### Outside fabric "Inside and outside!"

Outside - the strongest material that we have! Use products made from this fabric wherever you want. Pusku pusku uses bean bags made from this artificial leather in all extreme conditions: on rough sand, on asphalt, in snow parks, and even in the rain! Yes, Outside is really strong and nothing happens to it and this makes the fabric perfect for outdoor and for hard use overall.
